

AIRplus® Void and PAPERplus® Papillon
Logistics service provider for clothes, cosmetics and
pharmaceuticals

MORE EFFICIENT PROCESSES ALONG WITH PRODUCT DIVERSITY

CD Group is the right choice in Italy when it comes to storing, packaging, and shipping a variety of products: Difarco, Phardis, Stock House Italia Logistic and Phardis Life, four companies within the group, manage goods ranging from clothes to cosmetics and pharmaceuticals. The volumes involved are impressive: founded in 1979, the company processes 18,000 orders daily at six locations and looks after 190 brands.

PRODUCTS: clothes, cosmetics and pharmaceuticals
SCOPE: Silos with AIRplus® Void Recycle
Silos with AIRplus® BIO
PAPERplus® Papillon Battery machines
TOTAL OUTPUT: 18,000 orders daily

CHALLENGE – ACHIEVE GREATER EFFICIENCY

Storopack has been helping the service provider for a few years now, ensuring that their shipping goods reach the customer perfectly protected. In order to keep up in the ever-changing market of e-commerce, CD Group has to be able to provide a flexible, customizable and especially fast service to its customers. To improve its competitiveness CD Group wanted to modernize their packaging system and asked Storopack to provide customized solutions to make this happen.

„Storopack has helped us make our packing processes much more efficient. So you no longer have to wait for more packaging materials to be available.“

**GUIA D'ACQUISTO,
COMPANY'S DIRECTOR, CD GROUP**

SOLUTION - AIRplus® SILOS WITH RECYCLE AND BIO FILM AND PAPERplus® PAPILLON BATTERY MACHINES

As needs vary AIRplus® and PAPERplus® machines are the solutions of choice. At the location in Calvenzano, one packing station has been equipped with three silos and another one with two silos for AIRplus® air pillows. Thanks to the silos the box closing process is now faster, simpler and more effective. At the Liscate location, CD Group uses PAPERplus® Papillon machines tables with wheels. Equipped with long lasting oper-

ating batteries, the tables represent a mobile solution, allowing employees to pack directly in the warehouse. Difarco also sets great store in sustainable solutions that is why AIRplus® Void Recycle a film made from 50% recycled material, AIRplus® Bio a compostable film and recycled paper are now used.

„Our customers like to have different protective packaging options and often place importance on sustainability. Storopack has just the right products, from films featuring a high percentage of recycled materials to compostable solutions and protective packaging made from recycled paper.“

**GUIA D'ACQUISTO, COMPANY'S DIRECTOR,
CD GROUP**
